

IN THE CLAIMS:

Cancel Claims 2, 6, 7, 9, 11, 12, 19, 20 and 22 to 29 without prejudice or disclaimer.

1. (Currently amended) A holder assembly for access means to a space selected from magnetic and mechanical keys, comprising a holder which comprises at least one pocket, slot, envelope or pouch for holding said access means, a detachable or removably attachable security device comprising a space identification portion associated with the space, said holder assembly comprising at least one incentive motivating a user of said holder and the access means to separate said space identification portion from the holder and access means and to keep them separate for security reasons, wherein said at least one incentive comprises a reward.

2. (Canceled)

3. (Previously presented) The holder assembly of claim 1 wherein the space is selected from the group consisting of hotel rooms, shipboard staterooms, railroad compartments, storage compartments and rental vehicles.

4. (Original) The holder assembly of claim 1 which comprises at least two panels of sheet material folded to

form a compact booklet.

5. (Original) The holder assembly of claim 4, further comprising printed matter selected from the group consisting of maps, coupons, facility guides, transportation information, guides to games of chance, currency conversion tables, advertising, telephone directories and pictorial material.

6 and 7. (Canceled)

8. (Currently amended) The holder assembly of claim [[7]] 1 wherein said at least one envelope is sealed to contain the access means, and said space identification portion must be removed to open said at least one envelope and remove the access means.

9. (Canceled)

10. (Currently amended) The holder assembly of claim [[9]] 1 wherein said security device comprises at least one cord or strip of material attached to said space identification portion which is used to seal said at least one pouch.

11 and 12. (Canceled)

13. (Original) The holder assembly of claim 1 wherein said space identification portion is detachable from said holder by tearing along perforations.

14. (Original) The holder assembly of claim 1 wherein said space identification portion is removable from said holder by peeling from at least one pressure-sensitive adhesive layer.

15. (Currently amended) The holder assembly of claim 14 wherein the removal of said space identification portion reveals a reward comprising at least one game piece, prize coupon, advertisement, confection or souvenir.

16. (Previously presented) The holder assembly of claim 1 which comprises instructions to the user to separate said space identification portion from said access means to maintain security of access.

17. (Previously presented) The holder assembly of claim 1 wherein said security device prevents the use of said access means until said security device is removed from said holder assembly.

18. (Currently amended) Access means to a space in combination with a detachable or removably attachable security device comprising identification means for the space, said security device preventing use of said access

means until removal, and providing at least one incentive for removal and maintaining said security device separate from said access means, wherein said at least one incentive comprises instructions to separate said security device from said access means and said security device provides a reward by its removal from said access means.

19 and 20. (Canceled)

21. (Currently amended) The combination of claim 18 wherein said access means are selected from the group consisting of card keys[[],] and mechanical keys [and combinations for a combination lock imprinted upon suitable media] and said security device comprises at least one component selected from the group consisting of peelable adhesive labels, strips of paper or fabric, cords and closures for a holder for said access means.

22 to 29. (Canceled)

30. (Previously presented) A portable holder assembly comprising a holder containing a key for a numbered hotel room, comprising at least two panels of card stock folded to form a booklet and comprising printed matter, with a removable security device containing the assigned room number, said holder including instructions and incentives, comprising at least one reward, for the assigned guest to remove said security device and to keep said security device

separate from said key for security reasons.

31. (Currently amended) The holder assembly combination of claim 30 wherein said key is a magnetic card key or a mechanical key.

32. (Currently amended) The holder assembly combination of claim 30 wherein said removable security device prevents the use of said key until said security device is removed from said holder assembly.

33. (Currently amended) The holder assembly combination of claim 30 wherein the removal of said removable security device facilitates access to a reward comprising at least one game piece, advertisement, prize coupon or souvenir.

34. (Currently amended) A manifold holder assembly for access means to a space, comprising at least four panels of card stock foldable to form a booklet and a detachable or removably attachable security device comprising an identification portion associated with said space, said security device providing at least one incentive comprising a reward and instructions for removal of said identification portion from said holder assembly and maintaining said

identification portion separate from said access means for security reasons.

35. (Currently amended) The holder assembly combination of claim 30 which comprises at least four panels of card stock.

36. (Currently amended) The holder assembly combination of claim 30 which comprises at least one map.

Please add the following new claims:

37. The holder assembly of claim 35 which comprises about five panels of card stock.

38. The holder assembly of claim 34 wherein said access means is a magnetic or mechanical key.

39. The holder assembly of claim 38 in combination with said access means.

40. The holder assembly of claim 34 which further comprises printed matter selected from the group consisting of maps, coupons, facility guides, transportation information, guides to games of chance, currency conversion

tables, advertising, telephone directories and pictorial material.

41. The holder assembly of claim 40 which further comprises at least one reward coupon which is detachable from the card stock panels.

42. The holder assembly of claim 34 which comprises at least one pocket or slot for holding said access means.

43. The holder assembly of claim 34 which contains at least one access device in said at least one pocket or slot.

44. The holder assembly of claim 34 wherein said security device comprises at least one peelable label comprising said identification portion, which reveals a reward or reward information when removed.

45. A portable manifold holder assembly comprising a holder for presenting a key for a numbered hotel room which comprises at least four panels of card stock foldable to form a booklet and comprising printed matter, with a detachable or removably attachable security device comprising a portion containing the assigned room number,

said holder including instructions and incentives, comprising at least one reward, for the assigned guest to remove said security device and maintain the assigned room number separate from said key for security reasons.

46. The holder assembly of claim 45 wherein said printed matter is selected from the group consisting of maps, coupons, facility guides, transportation information, guides to games of chance, currency conversion tables, advertising, telephone directories and pictorial material.

47. The holder assembly of claim 45 which contains a magnetic or magnetic key.

48. The holder assembly of claim 45 which comprises at least one slot or flap for holding said key.

49. The holder assembly of claim 48 wherein said at least one flap contains the hotel room number and is perforated for removal.

50. The holder assembly of claim 45 wherein said security device portion containing the room number comprises at least one peelable label.
